REALISING CROSS-BORDER AMBITIONS

LIMES international

About us

We support companies and people who cross national borders.

Globalisation is blurring trade boundaries. And that offers unprecedented opportunities to talented, ambitious people and organisations. But in addition to challenges and opportunities, working in other countries and cultures means having to deal with complex laws and regulations. For people and companies to operate successfully across national borders, integral specialist support in the area of tax law and other legal matters is essential. And we provide that support.

As an international player, LIMES international is affiliated with Geneva Group International (GGI) and EuRA. Membership of these leading organisations provides us and our clients access to valuable local knowledge and expertise in more than 120 countries. Beyond this, we also have an extensive network of international service providers in all conceivable areas. Our consultants work intensively with their foreign colleagues on a daily basis on international issues for clients. Their knowledge and expertise enable us to provide you with the best possible guidance in any country based on local knowledge, contacts and support.

Interesting fact:

Our head office is located in Valkenburg, close to Leiden.

Two thousand years ago this was the northern border of the Roman Empire.

These borders came to be known as 'limes', from the Latin for 'limit' (boundary).

We also have offices in Amsterdam and in Belgium.

WE ARE LIMES INTERNATIONAL.

Realising cross-border ambitions since 1990.

We see the world as one large international market where talents can be developed and ambitions realised. Using our expertise, we provide professional guidance and support to companies and people who cross national borders. That's what drives us.

AT LIMES, WE DO NOT THINK IN TERMS OF RESTRICTIONS, BORDERS AND BOXES.

We think in terms of opportunities. We explore new possibilities, within the legal frameworks and regulations. We advise and implement, take on some of the load, facilitate.

We have all services under one roof.

And we are the one-stop shop for our clients who operate internationally.

WE WORK ACCORDING TO THE LIMES TEAM METHOD.

We form teams for our clients in the areas of business tax, expat tax, legal, social security and immigration. With our three-step approach of analysis, strategy and compliance, we create a range of insights and perspectives so that we can ultimately offer the best integrated solutions and guidance. That is what sets us apart and makes clients choose us.

WE DO THIS IN OUR CHARACTERISTICALLY PRAGMATIC WAY.

Down-to-earth and no nonsense. Reliable and committed.

We always think along and are always solution-oriented.

We bring complexity back to simplicity.

We ask critical questions and search for the best answers together.

We are service-oriented and results-driven.

These are the pillars of our organisation.

WE ARE THOUGHT LEADERS. EXPERT THINKERS AND DOERS.

We have specialist knowledge and experience in the areas of social security, business & expat tax.

We share our knowledge and experience through the LIMES academy with seminars, workshops and presentations.

We learn from the experiences of our clients and colleagues abroad.

This way, we continue to develop and innovate.
